Is Panasonic discontinuing its evervolt solar & battery storage product line?
Another one bites the dust: Panasonic is discontinuing its EverVolt solar and battery storage product line. The company sent a letter to dealers on Monday,but noted they will continue to honor warranties. Re-read that warranty information here. "We have made the decision to discontinue our solar and battery storage business line.

Why did we discontinue our solar and battery storage business line?
Re-read that warranty information here. "We have made the decision to discontinue our solar and battery storage business line. This change allows us to focus on areas where we can have the greatest strategic impact. We remain confident in the technology and grateful to our partners and customers who have supported this journey.

Does Panasonic still make solar panels?
Panasonic was once a top manufacturer of solar panels,focused on higher end heterojunction (HJT) modules. The company stopped manufacturing solar modules in-house in 2021,and went all-in on solar +storage,acquiring a hybrid solar inverter and launching a battery line,all rebranded as the EverVolt. I didn't see this one coming.

Why should you choose a solar storage container?
Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Apr 29, 2025 · Panasonic just announced its plans to discontinue its solar and battery storage product line, but customers don"t need to panic--here"s what to know.
