-----  
What is a global power supply battery cabinet?

Global Power Supply provides a full range of battery cabinets engineered to extend UPS runtime, protect sensitive loads, and maintain continuity in any environment. A UPS system provides immediate backup power during an outage. Paired with compatible UPS battery cabinets, your facility gains extended power capacity and greater resilience.

What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

Are Natron battery cabinets a good choice for a data center?

Natron's sodium-ion batteries offer superior reliability and industry-leading lifecycle capacity and require minimal maintenance when compared to other data center battery solutions. Our standard battery cabinets do not require any type of active cooling to function properly, eliminating that risk from your operations as well.

What is a UPS battery cabinet?

Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery. Industries such as data centers, healthcare, and manufacturing depend on UPS battery cabinets to safeguard operations, protect sensitive equipment, and maintain uptime.

When selecting batteries for data center operations, the choice is not as simple as cost or preference. Some factors to consider include: new build v. retrofit or component replacement, ...
