Will ASEAN build a low-carbon regional power grid by 2045?

ASEAN has set a clear goal: build a fully integrated, low-carbon regional power grid by 2045. Backed by strong political commitment and international support, this plan aims to connect 10 countries and nearly 700 million people across Southeast Asia. It's one of the most ambitious energy integration efforts in the world.

How can the ASEAN Power Grid facilitate investments in renewables?

To facilitate investments in renewables in ASEAN, it is critical to overcoming the barriers in renewable energy legislation, energy governance, and business environment. 28 Cooperation through the ASEAN Power Grid brings economic benefits to the region as a whole, and thus improves the affordability for energy transition.

Does ADB support the ASEAN Power Grid?

ADB is uniquely positioned to support the ASEAN Power Grid. The ASEAN power grid will improve energy security, strengthen resilience of the overall energy system, and promote the region's decarbonization. Delivering the ASEAN Power Grid is a complex, long-term task that requires strong and strategic partnerships.

Why should ASEAN invest in power generation capacity?

ASEAN recognises the critical role of efficient, reliable and resilient electricity infrastructure in stimulating regional economic growth and development. To meet the growing electricity demand, huge investments in power generation capacity will be required.

Overview History Implementation Current system Future expansions Trans-ASEAN Gas Pipeline Network The ASEAN Power Grid (APG) is a key initiative under the ASEAN Vision 2020 and has the goal of achieving regional interconnection for energy security, accessibility, affordability and sustainability. The APG is a regional power interconnection initiative aiming to connect the electricity infrastructure of the member states of the Association of Southeast Asian Nations (ASEAN).
