What is a 12V 10A power bank?

A 12V 10A power bank is a compact power bank with a 18000mAh capacity that can charge your phone using dual USB ports (one is a 5v/9v Quick Charge) and power your other car accessories using a 12V 10A DC port.

How often should a 12V power bank be charged?

Do not modify or disassemble the power bank. Do not throw the 12V power bank into fire or water. Do not place the power bank during charging on flammable materials such as in the bed or carpets. No long-term placement in a low voltage state. In order to extend the service life, it's suggested to charge every three months if long term storage.
