Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets,cases,cages,cable management,and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines,IL. This includes data center custom server cabinets,cases,cages,cable management,and PowerWhips products.

What is a DC series cabinet?

Our DC Series is the Data Center Standard for high-capacity,high-weight load rated,feature-rich cabinets.

How long do data centers last?

Data centers replace their IT equipment much faster than the infrastructure hosting them. For example,a cabinet is,on average,used for 15-20 years,while servers have a typical lifespan of only 3 to 5 years.

Why are cabinets important in a data center?

Cabinets are one of the most important items in any data center that house different types of IT equipment. We offer different type of cabinets. When selecting a cabinet,it is critical to choose one that can adapt to your IT equipment needs and support your infrastructure to function in the most energy-efficient way possible
