Who makes aluminum battery casings?

They have honed their focus on the automotive industry, particularly on its electrification, ascending to become the supplier of aluminum battery casings and exterior parts. Their global footprint is underscored by strategic partnerships and joint ventures, notably with the Renault Group for manufacturing battery casings in France.

Where are battery thermal management components made?

Located in Suzhou, China, they're masters in developing battery thermal management components, like battery pack enclosure, liquid cooling plates, with a variety of proprietary product lines. Their edge? A one-stop solution from R&D to production, all meeting automotive-grade standards (IATF 16949). They have cooperation with Vinfast, LG, etc.

Why is China a leader in battery liquid cooling products & services?

If you're curious about battery liquid cooling products or services, feel free to ask me any questions! China excels in battery pack enclosure tech due to strong government support, a vast market, and major investments in innovation and sustainability.

How are battery boxes processed?

As mentioned at the beginning, there are three mainstream processing technologies for battery boxes: die-casting, extrusion, and stamping. These processes are all involved in 10 companies. We hope you can find a supplier that suits your battery pack project needs.

3 days ago · China excels in battery pack enclosure tech due to strong government support, a vast market, and major investments in innovation ...

Custom Battery Enclosure Manufacturer The metal battery enclosure is one of the most important components

of an energy storage battery project, providing effective protection and support for ...

SinoLaser Technology Co., Ltd., founded in 2009 and located in Suzhou, Jiangsu Province, China-just a short distance from the international metropolis of Shanghai-is a professional ...

Sep 14, 2025 · The answer often lies in battery cabinet aluminum frames, which account for 68% of high-performance energy storage systems globally. But what exactly makes aluminum the ...

Openex specializes in custom fabrication of platforms, tanks, enclosures, and structural parts for lithium battery production lines using carbon steel, stainless, aluminum, and nickel alloys.

2 days ago · Explore Magna's aluminum battery enclosures, leveraging our engineering and manufacturing expertise in complex aluminum assemblies. Offering significant weight savings, ...

Dec 2, 2025 · We're one of the industry leader in manufacturing of energy storage systems that rank highest in quality, safety, maintenance and ease of use. Openex manufactures first-class ...
