Are lithium battery charging cabinets safe?

Our lithium battery charging cabinets provide a safe,compliant solution for charging and storing lithium-ion batteries in the workplace. Designed and manufactured in Australia,these cabinets reduce the fire and safety risks associated with lithium batteries by combining active cooling,secure storage,and spill containment in one durable unit.

What is a lithium ion battery charging cabinet?

Lithium-ion battery charging cabinets are designed for both the charging and the storage of li-ion cells. Therefore,whatever charge your battery is on,you can store it in the cabinet until it is required by your staff.

What is a battery cabinet?

A battery cabinet is a particular type of storage cabinet that reduces the risks associated with lithium-ion batteries. These innovative cabinets create a safer environment in which workplaces can charge and store their li-ion cells.

What are Australian made battery charging cabinets?

These Australian made battery charging cabinets are designed to safely and securely charge and store lithium-ion batteries. Constructed from heavy duty steel to protect from the dangers of lithium related fires. View your cart to calculate shipping costs **FREE METRO SHIPPING** for orders \$500+

Our battery charging cabinets provide a safe, cool, and dry environment to store and charge Li-ion batteries. They are specifically designed to minimise risks associated with Li-ion battery ...
