-----  
What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

What makes Hilber Solar GmbH Special?

With Hilber Solar GmbH, the cross-generational and outstanding know-how flows into SolarCont GmbH as a guarantee for a perfectly coordinated and highly efficient photovoltaic system.

Who is solarcont GmbH?

SolarCont GmbH was created through a cooperation between the two successful companies Hilber Solar GmbH from beautiful Tyrol and the company Gf&#246;llner Fahrzeugbau und Containertechnik GmbH, which is deeply rooted in Upper Austria. This cooperation makes it possible to develop a completely new type of mobile solar system.

The main goal of the iSTORMY project is to develop a low cost, modular, efficient, (industrial) solution for stationary hybrid energy storage systems, with an optimal configuration to ...

Jun 19, 2025&ensp;&#183;&ensp;Facing an urgent need to upgrade their end-of-life telecommunication assets and transition to a modern digitalized mission-critical communications system, VERBUND was ...
