Is Azerbaijan a solar powerhouse?

Baku; October 26,2023: Abu Dhabi Future Energy Company PJSC - Masdar,the UAE's clean energy powerhouse,has signed agreements for solar and onshore wind projects with a total capacity of 1 gigawatt (GW) in Azerbaijan,following the inauguration of the region's largest operational solar plant,the 230MW Garadagh Solar Park.

Will Azerbaijan become a green energy producing and exporting country?

Azerbaijan is pleased to realize its strategic goals as a green energy producing and exporting country with Masdar and these projects will play an important role in increasing the share of renewable energy sources in electricity generation capacity to 30 percent by 2030.

What are Azerbaijan's strategic agreements?

The strategic agreements cover the progression of the first phase of a 10GW pipeline of renewable energy projectsin Azerbaijan signed in June 2022. This follows the successful development of Garadagh,Azerbaijan's first foreign investment-based independent solar power project,and the largest solar plant in the region.

How will Garadagh help Azerbaijan achieve its climate goals?

Garadagh is the first in a number of potential projects to develop onshore wind,offshore wind,solar and green hydrogenwith a total combined capacity of 10GW. This will lead to greater investment and international collaboration as we work together to help Azerbaijan achieve its ambitious climate goals.
