What is the capacity of EC's Bess project?

The total capacity to be acquired is 400MW/1,600MWh. In this regard, EC invites companies or consortiums that are experienced in implementing projects related to energy generation, and have the technical and financial capabilities to develop, finance, and operate energy storage systems to participate in the BESS project. RFQ Documents

Why is Malaysia launching a Bess project?

The inaugural development of public BESS project in Malaysia is part of the Government's efforts to support the energy transition and achieve the goals of increasing the country's installed renewable energy capacity to 70% and to achieve net-zero by 2050.

What does Bess stand for?

The tender for the design, manufacture, installation and 20-year operations & maintenance (O&M) of battery energy storage systems (BESS) for Power China's 2025-2026 projects was announced on 13 November, and the results were released last week.

How much did CGN new energy pay for Bess?

In January, CGN New Energy procured 4.5 GWh of grid-forming BESS and 6 GWh of grid-following BESS. In the first group, the bids averaged CNY 0.6067/Wh (\$84/kWh), while in the second one the average was CNY 0.489/Wh (\$67/kWh).
