Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.

What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What is a UPS battery cabinet?

Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery. Industries such as data centers, healthcare, and manufacturing depend on UPS battery cabinets to safeguard operations, protect sensitive equipment, and maintain uptime.

What types of battery cabinets are available?

Tariff Relief. Up to 10% Protection. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. Speak to a power expert to match up with your specific requirements.
