Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, facade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

What is a curtain wall?

A curtain wall is a lightweight, non-load-bearing exterior wall usually composed of glass and aluminium. The distinctive feature of a curtain wall is that it supports the structural core of the building completely independently. This allows the facade to contain very large areas of glass, creating an open, light and modern character.
