What is an Uninterruptible Power Supply (UPS)?

An Uninterruptible Power Supply (UPS) is a battery backup power system that provides reliable power to your grid-powered applications in case of an unplanned outage, blackout, brownout, or power dip. Solis Energy's UPS keeps your devices on short-term power until regular grid power is restored.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

What is an outdoor UPS power system?

Encased in a durable IP68 housing, it guarantees durability even in harsh weather conditions. With a wide input voltage range (100 to 240V AC) and operating temperatures from -40°F to 140°F, the Outdoor UPS Power System ensures consistent performance and system reliability in inclement outdoor environments.
