-----  
Is Brazil a good place to invest in EV charging?

Import Reliance: While local assembly grows, critical components (e.g., power electronics) remain import-dependent. Brazil's EV charging market is at an early inflection point, with strong momentum driven by regional incentives and rising EV demand.

Does Brazil have an EV charging market?

Brazil's EV charging market is at an early inflection point, with strong momentum driven by regional incentives and rising EV demand. Local champions (e.g., WEG, Eletra/BYD) and global players are establishing a robust domestic manufacturing and service base.

Who makes Smart AC chargers in Brazil?

A Spanish provider of smart AC chargers, expanding aggressively in Brazil with advanced digital features. A US-based CPO expanding its network, sourcing equipment both locally and internationally. A Swedish manufacturer building production lines in Brazil for AC/DC equipment.

How many EV charging points are there in Brazil?

Brazil's EV charging market is in a nascent but rapidly growing phase. As of mid-2025, there are an estimated 4,500-5,500 public charging points, growing fast but insufficient for mass EV adoption. AC Level 2 (7-22 kW): Most widely deployed due to affordability and ease of installation.
