What is the panorama of storage in Brazil?

The launch of the Panorama of Storage in Brazil marked a breakthrough in technical discussions and symbolized the beginning of a new era for the Brazilian electricity sector. With its eyes on the regulatory framework, the storage market has the potential to be one of the great drivers of the national energy transition.

Should Brazil invest in energy storage?

Brazil's energy storage sector must attract R47 billion (\$7 billion) in investments by 2030, according to the Brazilian Energy Storage Solutions Association (Absae). Stakeholders are in the process of creating a regulatory framework for energy storage.

What will the capacity reserve auctions mean for Brazil?

The Capacity Reserve Auctions,planned to start in June 2025,promise to boost investments for the adoption of storage,with the possibility of procuring 2 GW per year. For Rodrigues,these auctions are the key to putting Brazil among global leaders in the use of storage systems.

Will energy storage become a 'Swiss Army knife' in the electricity sector?

During the presentation,Absae shared the vision that storage must become a protagonist in the electricity sector and attract up to R\$47 billion in investments by 2030. Energy storage,especially through battery systems,has been called the "Swiss Army Knife" of the electricity sector.

Meet the 120kW mobile energy storage power station --the Swiss Army knife of modern energy solutions. With the global energy storage market hitting a staggering \$33 billion annually [1], ...
