What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floresti, Cluj county, which is expected to be operational by the end of 2025.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Bucharest is rapidly embracing lithium battery energy storage to stabilize its power grid and support renewable energy adoption. This article explores how cutting-edge storage solutions ...

Jan 7, 2020 · Imagine this: Bucharest's energy storage systems now have enough capacity to power every lightbulb in Romania for 47 minutes. Not bad for a country that once relied on ...

Jul 31, 2025 · Nova also suggested that by 2028, the company plans to install energy

storage systems of up to 600 MW / 1,200 MWh overall, ...

Jul 10, 2025 · Sintel to Build 98.6 MW / 196.4 MWh Battery Energy Storage Facility in Romania under EPC Contract with GÜRIS Group.

Jul 9, 2025 · Sintel (BVB: SMTL), one of Romania's leading renewable energy engineering and technology groups, has signed an EPC contract ...

Oct 20, 2025 · Developer R.Power has announced the launch of the sales process for one of its ready-to-build energy storage projects in Romania -- a 200 MW / 400 MWh unit known as ...

Aug 16, 2025 · In a rising investment wave, firms in Romania are combining energy storage with solar, wind and hydropower or building standalone ...

Aug 16, 2025 · In a rising investment wave, firms in Romania are combining energy storage with solar, wind and hydropower or building standalone systems.

The initial EUR860 million will be allocated by the end of the year for key projects including the production and storage of green energy, modernization of Bucharest's metro, and ...

Jul 31, 2025 · Nova also suggested that by 2028, the company plans to install energy storage systems of up to 600 MW / 1,200 MWh overall, supporting its gas power plants. Meanwhile, ...

Why Energy Storage Chassis Matters in 2024 As Bucharest aims to achieve 35% renewable energy integration by 2026, the energy storage chassis has emerged as the unsung hero. You ...

Jul 9, 2025 · Sintel (BVB: SMTL), one of Romania's leading renewable energy engineering and technology groups, has signed an EPC contract worth 168.9 million lei with Energy Capital ...

Jul 4, 2025 · Sintel announces the signing of an EPC (Engineering, Procurement, and Construction) contract with Energy Capital Group, owned by MOGAN Bucharest SRL, part of ...
