-----  
What is the bulk energy storage program?

The Bulk Energy Storage Program will use an innovative Index Storage Credit incentive, as established in the Order and modeled in part on the Renewable Energy Certificate (REC) and Offshore Wind Renewable Energy Credit (OREC) utilized in other NYSERDA programs.

Why did the PSC approve energy storage programs in 2024?

The PSC's subsequent 2024 Energy Storage Order approved the energy storage programs described in the Roadmap in order to achieve a total of 4,700 megawatts ("MWs") of incremental installed capacity of energy storage spanning the bulk, retail, and residential sectors.

What is the 2024 energy storage order (ISC)?

The 2024 Energy Storage Order adopted the ISC mechanism described in the Roadmap to help drive investment in bulk energy storage resources. The ISC represents 1 MWh of energy storage capacity that is operational and available on a given day, with units considered either available or unavailable for the entire day.

Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

When Procurement Meets Politics: The New Reality The IRA (Inflation Reduction Act) isn't just about inflation - it's reshaping energy storage parts procurement like a toddler ...
