What is New York State's first bulk energy storage competitive solicitation?

Categories: Storage , Energy Policy , Energy Storage , Batteries On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation.

Will there be a bulk storage incentive solicitation in 2026 & 2027?

At least two more annual solicitations are anticipated in 2026 and 2027. Under the upcoming bulk storage incentive solicitations, energy storage developers will competitively bid in to be awarded an Index Storage Credit (ISC), which is a design modeled after NYSERDA's Renewable Energy Credit market under its Large-Scale Renewables program.

What is NYSERDA's bulk energy storage program?

NYSERDA's Bulk Energy Storage Program employs a novel Index Storage Credit (ISC) incentive, as established in the New York Public Service Commission (PSC) Order, modeled in part after the Renewable Energy Certificate (REC) and Offshore Wind Renewable Energy Credit (OREC) utilized in other NYSERDA programs.

Why did the PSC approve energy storage programs in 2024?

The PSC's subsequent 2024 Energy Storage Order approved the energy storage programs described in the Roadmap in order to achieve a total of 4,700 megawatts ("MWs") of incremental installed capacity of energy storage spanning the bulk, retail, and residential sectors.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. It ...

EK Solar Energy provides professional base station energy storage solutions, combined with high-efficiency photovoltaic energy storage technology, to provide stable and reliable green energy ...
