Are lithium batteries shipped in a container?

There are three packaging categories for lithium batteries if they are being shipped in a container. When shipping lithium batteries, it is crucial to check the rules and regulations ahead of transportation, or work with an experienced shipping partner to ensure that your cargo is shipped following best practices.

How many lithium batteries can be shipped?

Only a maximum of four can be sent, with two per container, and each battery must have a rating of below 100 watts per hour. It is essential to note that some countries have their own regulations and restrictions for shipping lithium batteries, so it is crucial to check with the destination country's customs authorities before shipping.

How many lithium-ion batteries can be sent by air?

If not inside a device like a smartphone, the batteries must be in a hard-cased container. There are restrictions as to how many lithium-ion batteries can be sent within separate containers by air. Only a maximum of four can be sent, with two per container, and each battery must have a rating of below 100 watts per hour.

How do you ship lithium ion batteries?

Goods must be labelled as "Lithium Ion Battery" or "Lithium Metal Battery" and include appropriate shipping marks and hazard labels. Lithium batteries must have the correct documentation - including a Dangerous goods declaration, air waybill, and packing list. Can you Ship Lithium-ion Batteries Internationally?

Nov 22, 2025 · Wholesale Lithium-Ion Battery for PV Systems? Simply put, a lithium-ion battery (commonly referred to as a Li-ion battery or LIB) is a type of rechargeable battery that is ...

3 days ago · Learn whether you can add battery storage to a solar lease or PPA, how new tax credit rules affect eligibility, and what homeowners should know about costs and options.
