What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) offer energy continuity and protect your equipment from damages during power outages. [Learn more](#)

What is an ups & how does it work?

UPS units are emergency power supplies that ensure uninterrupted power delivery. In the event of a power surge or outage, the UPS takes over as the primary power source. This allows, for example, the saving of current projects and the safe closure of documents. A UPS protects hardware components from the negative effects of power surges.

What is a high frequency ups?

The high frequency UPS provides power backup solutions for critical loads such as telecommunications, laboratory equipment, intelligent buildings, glass and metal industries, PLC systems and power plants. Uninterruptible Power Supply (UPS) offer energy continuity and protect your equipment from damages during power outages.

Do ups come with a warranty?

All products in our range come with a warranty period, giving our customers the confidence that they are purchasing reliable solutions from the best suppliers and manufacturers, which will serve efficiently for a long time. Investing in a UPS power supply pays off both in the short and long term.
