What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

Can everexceed provide customized battery rack / cabinet system?

We can supply customized lead acid battery rack and cabinet system for solar, UPS, Telecom, Data center etc. EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell.

What is a QQE battery charging & changing cabinet?

QQE Technology are committed to developing an innovative battery charging and changing cabinet, which is suitable for electric vehicles. This design is not only suitable for charging lithium ternary and lithium iron phosphate batteries, but also has a number of advanced protection functions, such as Overload protection and no-load protection.

What is a VRLA battery assembly cabinet?

EverExceed VRLA battery assembly cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application requirement.

Battery for communication base station energy storage system With their small size, lightweight, high-temperature performance, fast recharge rate and longer life, the lithium-ion battery has ...

Our lithium batteries span a wide capacity range, from 12V to 24V (50Ah to 280Ah), making them suitable
