Does Croatia have a solar market?

The Renewable Energy Sources of Croatia Association (RES Croatia) says Croatia's solar market is growing year over year. But with residential and industrial rooftops accounting for most new installations, a key focus is enabling utility-scale growth. Croatia installed 397.1 MW of solar in 2024, according to figures from RES Croatia.

How much solar did Croatia install in 2024?

But with residential and industrial rooftops accounting for most new installations, a key focus is enabling utility-scale growth. Croatia installed 397.1 MW of solar in 2024, according to figures from RES Croatia. The figure is an increase on the 238.7 MW of solar that were installed in 2023.

How much solar energy does Croatia produce?

Current deployment is made up of approximately 655 MW on commercial and industrial (C&I) rooftops, 155 MW on residential rooftops, and 62.1 MW of large-scale solar installations. Croatia ranks at the bottom of the European Union for total solar energy production, generating about 3% of its annual electricity.

How many solar projects are there in Croatia?

Among the solar projects announced in Croatia last year were a 99 MW site scheduled for commissioning in 2026 and a 189 MW facility, set to be the country's biggest plant to date. Croatia held a renewables auction in summer 2024 that awarded more than 400 MW of solar across two categories.

Feb 20, 2023&nbsp;&#0183;&nbsp;&#0183;Croatia offers many opportunities for developments in the renewable energy sector, particularly solar energy. The country has one of the highest insulations in the EU, ...

4 days ago&nbsp;&#0183;&nbsp;&#0183;Croatian oil-and-gas company INA has awarded two contracts worth over EUR 33 million (USD 38.5m) to finance the construction of a ...

Jun 6, 2025&ensp;&#0183;&ensp;A new milestone for energy democracy in Croatia On 15 April 2025, ZEZ Sun, a new energy cooperative in Croatia, plugged in its first installation: a 200 kW power plant on the roof ...

Feb 5, 2025&ensp;&#0183;&ensp;The country installed 397.1 MW of solar in 2024, up from 238.7 MW in 2023. Rooftop installations accounted for nearly 90% of new capacity. Croatia now has over 26,000 ...
