-----  
How much will Taiwan spend on public charging stations in 2023?

On June 13,2023,Taiwan's Ministry of Transportation and Communications (MOTC) announced plans to accelerate the establishment of public charging stations,allocating a special budget of \$32 millionthrough the Forward-looking Infrastructure Development Program.

Does Taipei have EV charging facilities?

The city's network of charging stations(ranging from fast-charging facilities to conveniently located roadside options) is integrated seamlessly into the urban landscape. Taipei's EV infrastructure effectively mitigates range anxiety,thereby promoting EV adoption and reducing greenhouse gas emissions.

How many gas stations does CPC Taiwan have?

CPC Taiwan has more than 2000 gas stations,which can play an important role in providing charging stations and power exchange stations for electric vehicles. Combined with the different energy storage facilities,CPC Taiwan could also provide regional energy auxiliary services in the future.

Is battery production viable in Taiwan?

According to battery industry assessments,and even based on calculations regarding Taiwan's most widely application of batteries used in electric vehicles,where sales of new electric vehicles reached record high sales of 180,475 vehicles/units in 2019 ,battery production is still not viableor economical in Taiwan.
