Will 5G be available in Brazil?

Some states in Brazil have already launched 5G in Brazil. On July 6, 2024, Anatel released data on the deployment of 5G on the Brazilian territory.

How many municipalities in Brazil are eligible for 5G?

On December 2024, Anatel announced that all 5,570 municipalities in Brazil are now eligible to receive SA 5G technology, marking a significant milestone in the expansion of the next-generation network. At the time of Anatel's latest data release, it was estimated that 770 municipalities already had active 5G networks.

Will Brazil be the first Latin American country to have 5G?

"Brazil will be the first Latin American country to have 5G," said Communications Minister Fabio Faria on Thursday, apparently meaning a nationwide rollout. Several other countries already have started installing some 5G networks.

Will Brazil ban Huawei from 5G network buildouts?

The U.S. government has pressed other countries, including Brazil, to ban Huawei from 5G network buildouts, citing security concerns. Huawei has rejected such allegations. Huawei, which was not participating in Thursday's auction, might enter the game later on, experts and legislators said.
