What is a lithium-ion battery storage cabinet?

DENIOS presents its Energy Storage Cabinet specifically crafted for Lithium-Ion batteries, ensuring secure containment and charging. These meticulously designed lithium-ion battery storage containers guarantee comprehensive safeguarding, including 90-minute fire resistance against external sources.

Are lithium battery storage cabinets fireproof?

Constructed from powder-coated sheet steel, they incorporate a tested, liquid-tight spill sump to manage battery leaks that may catch fire. These fireproof lithium battery storage cabinets also feature self-closing doors and high-quality oil-damped door closers, further enhancing safety measures.

Are lithium-ion charging cabinets safe?

The highest fire risk occurs during charging. Adhering to basic safety rules is crucial. Asecos provides two reliable lithium-ion charging cabinets to fit your specific needs. Both options offer exceptional fire protection and safety features, ensuring secure storage and battery charging.

Why should you choose Ion-line battery storage cabinets?

Dangerous: Unattended storing and charging of batteries. All-round protection: ION-LINE safety storage cabinets for your safety. Frequent, sometimes weekly accidents and countless damages prove that the unattended charging and storing of batteries, for example, overnight, poses significant risks and dangers.
