What's going on with Egypt's solar project?

Work is underway on a 1.1 GW solar project with 100 MW/200 MWh of accompanying battery energy storage in Egypt. The first phase of the project is scheduled for commercial operation during the first half of next year.

Are power banks allowed on EgyptAir?

No in-flight use is allowed; charging devices using a power bank while onboard is strictly prohibited. Checked luggage restriction: Power banks are not allowed in checked baggage under any circumstances. Passengers are strongly encouraged to declare any power banks to EGYPTAIR staff during check-in to ensure all safety requirements are met.

What is Egypt's first hybrid solar and battery project?

The project, billed as Egypt's first hybrid solar and battery project, will be built in two phases. The first will see 561 MW of solar constructed alongside 100 MW/200 MWh of battery storage, with a targeted date for commercial operation in the first half of next year.

Are self-balancing hover boards allowed on EgyptAir flights?

Recreational Mobility Devices such as self-balancing hover boards are PROHIBITED on board Egyptair flights as checked or carry on baggage. In an ongoing effort to enhance onboard safety, EGYPTAIR has updated its policy regarding the use and transport of portable power banks.

Norwegian renewables developer Scatec has received the cabinet's approval to proceed with a major hybrid solar and battery storage project in Egypt, which can produce 100 ...
