What is Delta Battery energy storage system?

Delta's Battery Energy Storage System (BESS) is an all-in-one solution that includes the Battery System's Uninterruptible Power Supply (UPS) and Energy Management System (EMS) devices, allowing for rapid installation and a smaller footprint. It combines high energy density and robust safety in a modular, outdoor-ready package.

What is Delta Battery energy storage system (BESS)?

Delta's battery energy storage system (BESS) utilizes LFP battery cells and features high energy density, advanced battery management, multi-level safety protection, and a modular design. Available in both cabinet and container options, it provides a complete and reliable energy solution.

Who is Delta energy storage?

Delta is a leading one-stop provider of energy storage solutions with an impeccable safety record since 2018. We pride ourselves on delivering rigorously tested battery systems and in-house PCS, ensuring proven integration with over 20 battery brands.

What is a Delta Battery?

DELTA- are industrial batteries introduced on the Russian market in 2003. Manufactured in China, DELTA Batteries are based on Absorbent Glass Mat (AGM) and Gel technology. They are successfully used in applications including fire and security alarm systems, UPS, communication and energy systems.
