How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing

What is Solarpower Europe?

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Its mission is to ensure solar becomes Europe's leading energy source by 2030. ESMC is the organisation representing the interests of the European PV manufacturing industry. The Council relies o...

What is the role of European companies in the solar industry?

In the solar sector, European companies originally played a key role in developing the production equipment needed for the mass production of solar wafers, cells, and modules. While the rise of China's solar manufacturing sector initially provided a significant export market, a highly competitive local industry has since emerged.

What does the new EU report 'solar production equipment' mean for solar PV?

The new report „Solar Production Equipment - Key players in the EU's industrial ecosystem for solar PV" explores the European capacity to manufacture the equipment and machinery that produces at each stage of the solar module manufacturing process.

With its excellent protective performance and modular design, high-performance cabinets provide reliable support for power generation, monitoring and energy storage systems in the solar ...

Comprehensive ranking of Europe's top solar companies in 2025. Profiles include market share analysis, technology innovations, and key solar mounting solutions transforming EU renewable ...
