What is a thermal circuit breaker?

Thermal circuit breakers (circuit protectors,resettable fuses,circuit breakers for equipment protection) are ideally suited to overload protection of motors,transformers,magnetic valves,on-board electrical systems and low voltage lines.

What are the different types of thermal breakers?

Thermal breakers protect circuits from excess current in a similar way to a fuse,however,they often feature a switch allowing them to be reset if tripped. Common types of thermal breakers include thermal magnetic circuit breakers and thermal automotive circuit breakers.

What is the trip time of a thermal circuit breaker?

The trip time of thermal circuit breakers depends on the height and of the duration of the overload current and the ambient temperature. With higher current ratings,the bimetal or hot wire is heated up until the defined trip time is reached and the device ensures genuine physical isolation of the contacts. It's only a circuit breaker.

How many thermal circuit breakers are there?

E-T-A 106 Series Circuit Breaker AC 240V / DC 48V 10A - 106 P10 000040 10A From £16.47 Stock Availability: 4 pcs + -

Buy Thermal Circuit Breakers. Farnell® UK offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

KLIXON thermal circuit breakers are compact, lightweight, protective devices designed to repeatedly interrupt short circuits or extended overloads in applications which require precise, ...

Jun 30, 2025 · Discover E-T-A's advanced Thermal Overcurrent Circuit Breakers engineered for reliable resettable protection against overloads and short circuits in motors, transformers, and ...

Techna's range of push to reset thermal circuit breakers for thermal overload and short circuit protection. Current ratings from 0.5A to 45A, AC and DC voltages. Order online!

Thermal Circuit Breakers at CPC. Competitive prices from the leading Thermal Circuit Breakers distributors. Check our stock now!

Miniature temperature sensitive bi-metal auto-resetting circuit breakers, housed in a vacuum sealed plastic casing meeting IP68 environmental protection standard.

Thermal Circuit Breaker / Panel Mount / Red Push Button / Reset Time 1 Minute / Single Pole / 4A 250Vac / Supplied without Fixing Nut / 6.3mm QC Terminals / UL, TUV, RoHS / BM15-0400.
