What is a lithium battery for a forklift?

The forklift lithium battery is a battery based on lithium iron phosphate(LiFePO4) technology designed for electric forklifts. Lithium batteries offer higher energy density, faster charging speeds, and longer service life than traditional lead-acid batteries, making them ideal for powering forklifts. How long do lithium batteries last?

Which forklift batteries are supported?

The supported forklift brands include almost all the famous forklifts (which previous operated by the lead acid or SLA batteries) like Linde, Crown, Toyota, Hyster, Yale, Clark, Jungheinrich, Doosan, Hyundai, Caterpillar, Combilift etc. For any customized styled of forklift battery replacement, please don't hesitate to send us your project details.

How do I Choose an electric forklift?

There are several energy solutions available when choosing an electric forklift. In recent years, lithium-ion batteries have become an increasingly popular power source. Lithium-ion batteries deliver maximum power all the time, regardless of how much charge is left, unlike lead- acid batteries where less charge affects speed and lifting capacity.

Is a forklift lithium battery maintenance free?

Unlike conventional batteries, forklift lithium battery is completely maintenance free. It does not require water refilling, equalisation charging or regular maintenance, thus saving labour and operating costs. How long does it take to charge a forklift lithium battery?
