What is Huijue's folding solar PV container?

Huijue Group newly launched a folding photovoltaic container,the latest containerized solar power product,with dozens of folding solar panels,aimed at solar power generation,with a capacity for mobility to provide green energy all over the world. The Solar PV container is a mobile,plug-and-play solar energy solution.

What is a folding solar photovoltaic container?

The folding solar photovoltaic container developed by the Huijue Group represents a pioneering,flexible,and effective solution in energy provision. Besides meeting the demand of energy in different scenarios,this container will enable optimized utilization of resources by introducing module design and a powerful electricity generation system.

What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

What is a solar PV container?

The Solar PV container is a mobile,plug-and-play solar energy solution. It's designed to be foldable,integrated for fast deployment anywhere. Just lay the track,pull it gently,and the solar panels will be deployed. Start working efficiently,keeping up continuous conversion of solar energy to electricity.

We sell a container including fold-up aluminium solar wings, each made from 8 solar panels, providing 2.4kW power and wired to the pre-fitted ...
