Is solar power a real thing in Finland?

Many Finns are already familiar with solar power: solar panels can be found on the roofs of many homes, summer cottages and workplaces. As technology develops, industrial-scale solar power production is also becoming more common in Finland. Finland is undergoing a major energy transition.

Who are the best solar energy companies in Finland?

Fortum: Electricity company. Turn key solar energy systems. Full service chain from site assessment to system delivery and warranties. Green Energy Finland Oy: Turn key solution provider for renewable energy systems. Helen Oy: Electricity company. Construction and operating solar PV-plants.

Why is industrial-scale solar power production becoming more common in Finland?

As technology develops, industrial-scale solar power production is also becoming more common in Finland. Finland is undergoing a major energy transition. Moving away from imported fossil fuels and towards local, clean energy production will create the basis for new industrial investment.

How much solar energy does Finland produce a year?

Areas with the most favorable conditions can produce roughly twice the solar electricity that Finland does. In the best areas, the total radiant energy is about 2500 kWh per square meter a year. In Finland, the corresponding figure is approximately 900 kWh per square meter- slightly more in the most southern parts and slightly less up north.

Jun 18, 2025 · About Solarigo Solarigo is the only Finnish solar partner that develops, builds, owns, and operates utility-scale solar PV parks - all under one roof. With over 300 solar power ...

The companies in Solar Finland group are spread throughout the solar PV sectors each covering their own market areas. Whether it is manufacturing solar panels locally, designing and ...

Dec 1, 2025 · Finland, a country known for its commitment to sustainability and innovation, has emerged as a key player in the renewable energy ...

Jul 23, 2015 · FinSolar is spotlighting solar power. If you thought Finland wasn't ideal for solar panels, you have to read this. A project aimed at ...

The companies in Solar Finland group are spread throughout the solar PV sectors each covering their own market areas. Whether it is ...

Sep 26, 2025 · Finland solar panels Market Overview The Finnish solar market has experienced remarkable growth, with over 100,000 new solar ...

Sep 9, 2025 · Solar energy in Finland - conditions and opportunities Finland's northern location places limitations on the amount of annual solar energy production, but it offers an excellent ...

Dec 1, 2025 · Finland, a country known for its commitment to sustainability and innovation, has emerged as a key player in the renewable energy sector, particularly in solar power. With its ...

The company specializes in providing high-quality solar energy systems, offering complete packages that include solar panels and battery storage for optimal performance and long ...

Apr 18, 2023 · This article's Finnish version was first published in February 2019 and has been updated in June 2023. "Finland's advantage is its low atmospheric temperature, which ...

Finland is emerging as a northern solar energy leader, with around 300 industrial-scale projects in the pipeline. Discover how researchers and ...

Feb 24, 2016 · Ruukki Construction Oy: Solar energy systems integrated into roofing solutions and building materials. SaloSolar Oy: Producer of solar PV panels. Specialized in window ...

Dec 7, 2023 · Finland, often associated with its stunning natural landscapes, has become an unlikely contender in the global renewable energy market, ...

Explore Finland solar panel manufacturing landscape through detailed market analysis, production statistics, and industry insights. ...

Panels suitable for every type of roof Solar panels are suitable for the roofs of detached homes regardless of the type of roof. Our system components have been selected especially for ...

Sep 9, 2025 · Solar energy in Finland - conditions and opportunities Finland's northern

location places limitations on the amount of annual ...

Finland is emerging as a northern solar energy leader, with around 300 industrial-scale projects in the pipeline. Discover how researchers and companies are turning low sunlight into high ...
