The 2.5GW Ravenswood fossil fuel plant. Energy asset developer Rise Light & Power will redevelop its 2,480MW Ravenswood Generating Station - New York City's biggest ...

Ravenswood was originally built and owned by Consolidated Edison of New York Inc. (Con Edison) in 1963. The first two units constructed in 1963 were Ravenswood 10 and 20, each having a generating capacity of approximately 385 megawatts. Then, in 1965, Ravenswood 30 (commonly called "Big Allis") was commissioned with a generating capacity of nearly 981 megawatts. A new 1,000 MW unit was originally planned to be located on the north side of the East River Generating Station
