-----  
Is the energy sector a good investment for Sweden?

"Developments in the energy sector present significant opportunities for Sweden," says Joel G&#246;rsch, investment advisor, for automotive and mobility at Business Region G&#246;teborg. "The transition from petrol and diesel to electricity has resulted in much of a car's value shifting to its battery.

Where is Gothenburg's first battery Gigafactory?

and Gothenburg's first battery gigafactory. NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

How will the Gothenburg battery factory benefit the environment?

In a unique collaboration between the city and the battery factory, purified wastewater from Gothenburg residents will be used for cooling during production. The heated water will then be reused in the district heating network, benefiting both the environment and the city's residents.

What is going on at Gothenburg Energi & Vattenfall Gigafactory?

Gothenburg Energi and Vattenfall are building a power plant north of the site to connect the Gigafactory to the region's 130 kV power grid. In addition, preparatory work is underway, including connecting the site to the district heating, water, stormwater and wastewater systems.
