What are the best food storage containers?

The best containers help keep your food fresh, don't leak when traveling and hold up against stains and other life happenings. The Good Housekeeping Institute Kitchen Appliances and Innovation Lab tested more than 80 food storage containers over the years from leading brands such as Rubbermaid, Pyrex, OXO and more.

What is a Feurer insulated container?

FEURER insulated containers offer the ideal solution for the transportation and storage of temperature-sensitive products. Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination.

Why should you choose a thermocontainer?

Made of resistant EPS and robustly constructed, the thermo container offers high stability and is particularly suitable for the storage and transportation of medical products or perishable goods. Thanks to the flexible sizes and individual adaptations, the Thermocontainer can be tailored to specific requirements.

Why should you choose insulated containers?

Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination.
