Who makes electric vehicle charging stations & cabinets?

*Indicates a required field Dalsin Industries manufactures electric vehicle charging stations and cabinets for the ever-growing electric vehicle market. Call us today to get started on your next project!

How much does a 240V charging station cost?

Level 2 charging stations (240V) work best for most commercial properties where vehicles park for 2+ hours. These provide 25-40 miles of range per hour and cost \$3,000-\$13,000 per port installed. DC fast charging suits high-turnover locations but costs \$30,000-\$140,000 per port.

What are the components of an electric car charging station?

An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE). However, these components are vulnerable to moisture, extreme temperatures, ultraviolet light, dust, debris, and impact forces.
