What is the main source of revenue for the Venezuelan government?

PDVSA is the largest source of revenue for the Venezuelan government. When Venezuela nationalized its oil industry in the 1970s, PDVSA was formed. The government gave the company significant autonomy until the 1990s, when it took direct control of PDVSA.

Does Venezuela have a natural gas market?

Venezuela's energy sector has lost much of its capacity to collect and use natural gas, preferring instead to burn it off. Venezuela's government regulates natural gas prices, and concerns exist about the pricing structure and regulations for this market.

Will a new project increase Venezuela's production?

According to IPD Latin America, ventures operated by ENI, Repsol, and Maurel & Prom could increase production by an additional 50,000 b/d in the near term. As a result, we estimate that these projects will increase Venezuela's total output to around 900,000 b/d by the end of 2024.7

How much coal does Venezuela produce a year?

Venezuela's coal production fell by an average annual rate of 16% from 2001 to 2021 after peaking at nearly 8.7 million short tons in 2000. Venezuela was the fourth-largest coal producer in South America as of 2021, with 174 thousand short tons. Venezuela's coal production is entirely bituminous. 28

Wait, no - actually, the real crisis multiplier is the lack of energy storage solutions. Solar panels installed in 2020? They're basically decorative after sunset. That's where shared storage ...

A bustling city where traffic jams rival the Amazon's river currents, but instead of honking horns, you hear the quiet hum of renewable energy at work. That's the vision behind ...
