What is arrears in electricity bill?
The term arrears in electricity bill refers to the amount of money that is overdue from a previous billing cycle. This is the unpaid balance carried forward and added to the current month's electricity bill. Utilities mark this amount separately to show you how much you owe apart from the new charges.

What if I've fallen behind on my energy bills?
If you've fallen behind with your energy bills,the first thing you should do is contact your supplierto try to come to an arrangement. Energy arrears are a priority debt. This means you need to pay them before non-priority debts like unsecured personal loans. Find out more about the difference between priority and non-priority debts.

Are interest or late fees added to unpaid electricity bill?
Yes,in many cases,interest or late fees are added to unpaid arrears. Paying your electricity bill on time is not just a task--it's a way to stay stress-free and avoid extra financial burden. If you ever see arrears in electricity bill,act quickly and follow the simple steps above.

What if I can't afford to pay my energy bill?
If you simply cannot afford to pay your energy bill while repaying other essential living costs,you should consider: Speaking with a debt charityto consider other options,including debt solutions like a Debt Management Plan or a Debt Relief Order. What happens if I can't keep to the plan?
