Will Huawei's new battery revolutionise China's electric vehicle landscape?

Huawei's recent unveiling of a revolutionary solid-state battery, promising a remarkable 1,864-mile range with a mere five-minute charge, is poised to redefine the electric vehicle landscape and elevate China's standing in the global race for sustainable energy solutions.

How much energy does a Huawei EV use?

The Chinese company claims an energy density of over 500 Wh/kg, which should power an EV for up to 1,860 miles (3,000 km). However, the numbers don't add up, raising questions about Huawei's seriousness. Solid-state batteries (SSB) get closer to reality as more companies intensify efforts to start production.

Can a new EV battery give you a 3,000 kilometre range?

Chinese tech giant Huawei has filed a patent for a next-generation solid-state electric vehicle (EV) battery that claims to offer an unprecedented driving range of over 3,000 kilometres on a single charge and can be fully recharged in just five minutes.

How far can a Huawei EV go?

Huawei said its battery can enable driving ranges of over 1,800 miles (3,000 km), with ultra-fast charging in just five minutes. I get it that such claims might be required to even get noticed in China, where every other company makes similar promises. However, what Huawei promises can't possibly be achieved with current EV technology.

Jun 18, 2025&nbsp;&#0183;&nbsp;&nbsp;&nbsp;Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra ...

Dec 26, 2023&nbsp;&#0183;&nbsp;&nbsp;&nbsp;Aito, the new energy vehicle (NEV) brand backed by Chinese tech giant Huawei, has officially launched the Aito M9, a flagship SUV that has garnered 54,000 pre-orders since ...

Jul 1, 2025&ensp;&#0183;&ensp;Huawei is the latest to jump on the SSB bandwagon with a high-energy-density sulfide-based battery. The Chinese company claims an energy density of over 500 Wh/kg, ...

Jun 7, 2024&ensp;&#0183;&ensp;The cost of Huawei's customized energy storage battery varies significantly based on several factors such as specifications, capacity, ...

Jun 18, 2025&ensp;&#0183;&ensp;Contents Huawei has intensified its push into advanced energy storage by filing a patent for a sulfide-based solid-state battery. This battery promises a 3,000km driving range ...

Jul 1, 2025&ensp;&#0183;&ensp;Huawei is the latest to jump on the SSB bandwagon with a high-energy-density sulfide-based battery. The Chinese ...

Jun 18, 2025&ensp;&#0183;&ensp;Contents Huawei has intensified its push into advanced energy storage by filing a patent for a sulfide-based solid-state battery. ...

Nov 27, 2025&ensp;&#0183;&ensp;Huawei Aito M7 packs extended range plug in hybrid tech, big SUV space and a HarmonyOS smart cockpit. Explore Huawei Aito M7 price, range, battery, speed and trim walk ...

Jul 3, 2025&ensp;&#0183;&ensp;Huawei's recent unveiling of a revolutionary solid-state battery, promising a remarkable 1,864-mile range with a mere five-minute charge, is poised to redefine the electric ...

Jul 16, 2025&ensp;&#0183;&ensp;Chinese tech giant Huawei has filed a patent for a next-generation solid-state electric vehicle (EV) battery that claims to offer an ...

Cell to Grid Safety Huawei's Smart String Grid-Forming ESS ensures robust protection through five layers of integrated safety design, from individual ...

Jun 7, 2024&ensp;&#0183;&ensp;The cost of Huawei's customized energy storage battery varies significantly based on several factors such as specifications, capacity, technical features, and market conditions. ...

Jul 16, 2025&ensp;&#0183;&ensp;Chinese tech giant Huawei has filed a patent for a next-generation solid-state electric vehicle (EV) battery that claims to offer an unprecedented driving range of over 3,000 ...

Why Are Energy Storage Costs Still a Barrier to Renewable Adoption? As China accelerates its dual carbon goals, the cost composition of energy storage power stations has become a ...
