---

As a cornerstone of SaudiVision2030, the Red Sea project stands as the world's largest microgrid energy storage project, with a storage capacity of 1.3GWh. Huawei provided a complete set of equipment and consulting services for the project, including 400 MW PV inverters, 1.3 GWh ESSs, ...

Over 300 technicians completed Huawei's Energy Storage Academy program last month. They're learning everything from battery chemistry to blockchain-based energy trading--skills that'll ...
