What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who installs sigenergy hybrid inverters & energy storage solutions in New Zealand?

Planet Electricalis proud to install Sigenergy hybrid inverters and energy storage solutions across New Zealand. With their advanced technology, reliability, and efficiency, Sigenergy is an excellent choice for anyone looking to reduce energy costs, maximize solar power, and achieve energy independence.

What is a sigenergy hybrid inverter?

Sigenergy Hybrid Inverter - Converts solar power into usable electricity and manages energy flow between the grid, battery, and home. SigenStor Battery - A scalable all-in-one storage system that integrates seamlessly with Sigenergy inverters. Sigenergy Energy Management System - AI-driven technology that ensures optimal energy usage and savings.

What is a solar hybrid system?

A solar hybrid system stores excess solar energy and low-cost electricity for emergency uses such as power outages or blackouts. This enables reduced consumption of power from the grid, which is very beneficial for homeowners and businesses that operate during daylight hours.

GoodWe solar inverters can be used in a range of applications including residential and commercial rooftops, industrial and utility scale systems and range in size from 0.7 kW to 250 ...
