By checking your energy use and comparing it to a 3 kW solar system, you can decide if it's a good fit. If your home doesn't match, think about getting a bigger system or using less energy.

Most solar energy companies will tell you that 3 kW of power isn't enough to cover all your electricity use, but adding a 3kW solar system to your roof or backyard can still help you...

Thinking about solar energy but overwhelmed by technical jargon? Let's cut through the noise. A 3-kilowatt solar power system has become the goldilocks solution for residential and small ...
