---------------------------------------------------------

What is a 42U floor standing server rack cabinet?

The 42U Floor Standing Server Rack Cabinet offers a combination of security, efficiency, and cost effectiveness for your network infrastructure. Whether you're setting up network equipment racks in a data center or organizing a server room, this modular IT network enclosure from STURDX ensures that your equipment is secure, cool, and organized.

How many LBS can a 42U server rack support?

Designed for both high capacity and efficient space management,this IT network enclosure can support up to 1200kg (2645 lbs)of equipment,making it ideal for demanding setups like network equipment racks and server enclosures. This makes the 42U server rack a highly reliable and secure server enclosure,suitable for any data driven environment.

What is the SmarTrack 42U standard depth rack enclosure cabinet?

The SmartRack 42U Standard-Depth Rack Enclosure Cabinet protects sensitive electronic equipmentfrom harsh conditions that would overwhelm a typical rack enclosure,including falling dirt,dust,drips and splashes. It is ideal for use in factories,construction areas,utility plants,warehouses and other areas high in moisture,dust and debris.

How much power does a 42U rack use?

The power consumption of a 42U rack depends on the equipment installed within it. It varies based on the number and type of servers,networking devices,and other hardware. Power usage can range from a few hundred watts to several kilowatts,especially if high-performance servers or numerous devices are installed.
