Energy officials plan to begin construction of the Dudh Koshi Storage Hydroelectric Project this year by declaring it a national priority project and rushing the preliminary process. ...

Enter the Nepal Energy Storage Base initiative - a \$1.2 billion national program approved last month to deploy 30 storage facilities by 2027 [1]. The strategy combines three complementary ...

The project said the overall construction is set to be completed by May 2026. The project will be one of Nepal's biggest storage-type projects, with an estimated annual energy ...

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said ...

These evaluations apply the previously developed Energy Storage Readiness Assessment to evaluate the policy and regulatory environment for energy storage in each country and provide ...

Kathmandu, April 4 -- Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organisation (UNIDO) ...

Imagine a city where streetlights dim during peak hours while hospitals rely on diesel generators. This isn't fiction - Kathmandu's power demand grew 18% annually since 2020, yet 6-hour daily ...

The storage-type 1,200 megawatt project has suffered quite some politicking over the years, with various governments allowing a Chinese firm to build it and then revoking the ...
