How long do SLI street lights last?

SLI's X-35-LED and Stealth II model solar powered street lights are designed for a 20-year service life, use Phillips Illumined 5050 LED Chips, long long-life LiFePo4 batteries, and are powder-coated to resist harsh saltwater environments.

Who makes the best solar street lights?

Your reputation is important to us at Solar Lighting International and we manufacture the highest quality, best solar street lights available. We will collaborate with you to design a solar street lighting system tailored to your requirements and budget.

Are solar street lights eco-friendly?

Commercial-grade solar street lights have become increasingly popular, notably in the recent decade. They are now commonly considered the most environmentally friendly alternative to utility grid lights. They are the ideal replacement for all applications since they are cost-effective, sustainable, and low-maintenance renewable energy sources.

Do solar street lights rely on the utility grid?

We are frequently asked to design solar lights for highways, city streets, industrial solar street lights for areas such as port roadways, and residential street lights as well. Our commercial solar street lights do not rely on the utility grid, allowing them to be installed on rural roads and streets without running power to the light pole.
