What is Malaysia's solar energy program?

This program, set for bidding in Q3 2025, aims to make Malaysia's power grid more stable and efficient. We specialize in integrating advanced battery storage systems for solar farms, helping businesses store and manage energy more effectively. With our solutions, you can ensure reliable power supply and maximize your renewable energy investments.

What is Bess (battery energy storage system)?

That's where BESS (Battery Energy Storage System) comes in. Think of BESS as your solar's power bank-- it stores the energy your panels produce,so you can use it anytime,even after the sun goes down. What is BESS? BESS (Battery Energy Storage System) is the missing piece that takes your solar investment further.

Where in Malaysia is solar battery storage available?

GSL ENERGY has completed many more solar battery storage installations across Malaysia,including for homes,telecom towers,agricultural businesses,and factories in Penang,Selangor,Johor,Sabah,and Sarawak. GSL ENERGY offers cost-effective solar battery bank solutions with international certifications including CE,IEC62619,UN38.3,and more.

How will Bess help Malaysia achieve net-zero ambitions?

Once operational,the system will contribute to an estimated annual carbon avoidance of 126.5 tCO₂e and support Malaysia's net-zero ambitions. The deployment of BESS encourages integration of renewable energy into the gridand the enhanced energy stability is expected to have significant upside for the economy.
