Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

What is the main power source in Latvia?

Hydro is an important power source in Latvia, Kegums Hydroelectric Power Station is the oldest hydro power station in the country, built in 1940. It was agreed in 2018 that Estonia, Latvia and Lithuania would connect to the European Union's electricity system and desynchronize from the Russian BRELL power system by February 2025.

What is Latvia's recovery and Resilience Plan?

Latvia's Recovery and Resilience Plan plays a key role in the energy transition, supporting economic recovery through major investments in renewables like wind, solar, and biomass, as well as initiatives such as a 60 MW Battery Energy Storage System by 2026 and cross-border projects to synchronize with Continental Europe .

What is Latvia's Energy Strategy 2050?

Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with significant investments planned in wind, solar, biomass, and biogas, as well as in energy storage technologies like batteries and subsurface systems to ensure supply stability .

Mar 1, 2024 · Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a ...

Discover how Latvia's innovative energy storage initiatives are reshaping grid stability and renewable integration. This deep dive explores technical breakthroughs, market trends, and ...

Nov 10, 2025 · European Energy has secured EUR 37.9 million of long-term project financing for a hybrid solar and battery storage project in Saldus, Latvia. Once operational, it will be among ...

Nov 6, 2024 · Targale, Latvia -- On November 1, 2024, Targale Wind Park held its grand opening, unveiling Latvia's first major energy storage facility. Hoymiles, as a key technology ...

Mar 1, 2024 · The two grid-scale battery energy storage systems will be connected in autumn 2025, aiding Latvia's synchronization with the ...

Jan 2, 2024 · Mobile battery energy storage systems offer an alternative to diesel generators for temporary off-grid power. Alex Smith, co-founder ...

Jun 19, 2025 · In Latvia, renewable energy sources account for a significant portion of the country's electricity generation, with a target of 57% by 2030 [1]. Hydroelectric power is the ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a ...

Rolls-Royce supplies mtu large-scale battery storage to secure ... Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tikls (AST) to supply an ...

Feb 24, 2025 · A solar PV plant in Latvia that Latvenergo deployed via subsidiary Elektrum. Image: Latvenergo. Latvia state-owned utility and ...

Growing expertise in hydrogen pilots, energy storage, maritime digitalisation and smart city systems. Strong engineering and manufacturing capabilities supporting EV components, ...

Nov 7, 2024 · The 10MW/20MWh project's opening event, attended by Latvia's energy minister Kaspars Melnis. Image: Hoymiles Power Latvia. In news from Europe's Baltic Sea region, ...

Nov 7, 2024 · The 10MW/20MWh project's opening event, attended by Latvia's energy minister Kaspars Melnis. Image: Hoymiles Power Latvia. ...

Oct 30, 2025 · The addition of two utility-scale battery energy storage systems (BESS) in Latvia marks the final milestone in synchronizing the Baltic power grids with continental Europe, ...

Latvia purchases mobile energy storage power
