What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

Are foldable containers a good solution for shipping and storage?

In today's fast-paced and constantly evolving world, the need for flexible and cost-effective solutions for shipping and storage is more important than ever. This is where foldable containers come in - the perfect solution for those seeking a compact and customizable option for shipping goods.
