Why is battery energy storage system being introduced in Mauritius?

The CEB is introducing a Battery Energy Storage System (BESS) on its network to arrest the fluctuation inherent to Variable Renewable Energy (VRE) systems. This is due to the increasing share of VRE in Mauritius' energy mix, as the country's energy transition to a low carbon economy gains momentum.

How will Mauritius transition to a low carbon economy?

Mauritius is transitioning to a low carbon economy, with the Central Electricity Board (CEB) installing the first grid-scale Battery Energy Storage System (BESS). This is the first of its kind in Mauritius and enables high capacity storage of renewable energy in the grid.

What is Mauritius' long term energy strategy?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by 2025. This includes reducing the country's dependence on coal and heavy oil for electricity generation.

We produce high-performance energy storage cabinets with precision laser cutting, seamless welding, and rustproof finishes. Our ISO-certified facility guarantees durability, while our ...

We are a leading energy storage cabinet sheet metal manufacturer, equipped with advanced CNC machining, laser cutting, and robotic welding for superior durability. Our skilled engineering ...

Let's face it - energy storage fire cabinet installation isn't exactly dinner party conversation material. But when a Tesla Powerwall installation in Arizona caught fire last year ...
