What is a detachable container house?

What do you want? The fourth-generation Detachable container house offers flexible connectivity and disassembly, making it highly convenient for transportation and installation. It can be vertically assembled, accommodating up to three layers.

How can a foldable container house help you build a home?

Whether you're looking to build luxury villas, contemporary apartments or independent offices, our system can accommodate your needs. For foldable container houses, you only need to provide a piece of land, and you can quickly build your home on it, shortening the construction time and reducing labor costs.

Why should you choose a movable container house?

For foldable container houses, you only need to provide a piece of land, and you can quickly build your home on it, shortening the construction time and reducing labor costs. Flexible and detachable, a perfect combination of modern fashion and practical functions. The movable house from the future makes life more free.
